

It was a painful blow
to us knowing our only boy
was a fine man & a
brave officer. He never
completely got over his wounds
of the last war & was in
hospital for years. I
remember him firmly and to
me friend himself who
was staying at our home
at the time & telling me he
was one of our best friends
he had been in my arms
I remember me

I shall be glad to hear
from my old friend at times
I came off a fine steam
boat - Boston Line & after
only leaving Canada a few
months before
unfortunate change. It was a
memorable every incident in
which we were so happy
they had just spoken
I have these photographs
the dates 23 is an officer
in the 17th Regt Engineers - the
date given is that the
the year is 18

Your Uncle Ollie was a
fine negotiator & we
knew him & Dr. Brewster
very much. We are in
this now for everything
we know - & may feel
bad about but we shall
be all through - soon. I
shall enjoy one week
of labor rest in peace

It is 5-3 years ago
since I met him first.
He was a good husband
& father & a true friend
& meeting him always
gave me great pleasure.
I can not believe that it
is 23 years since you were
in Mexico & since you were
in my office in the Boston
building, what changes
since then?

You will probably not
be able to read this
account - but you must
know it -

hence to know - (try the water)

Sweden - Sweden - Sweden

I left S. S. - from my heart -

agrees to see my dear friends

Because we

your success

from history

My dear Hope

I was glad to
see your letter & to know
you are alive & well
I am almost afraid
to ask about any one
now but I do hope that
he is all that you say
I could not find one
person in Ireland who
had ever seen me or
a boy

During the week I lost lots
of letters - the day the snow
descended we left here - first.
About the door - we were every
leaving every thing in the
house - more expressing &
in any of it again - If you
or you know necessary to
place during the first 5 months
so we returned - found that
the house had not been
broken into - but papers had
been a burst so the place

was full of ice - we had
been staying with my
Aunt Grace in Lewis & Clark, she
has a very big place on the
south coast - She went
over land for us - my wife
& my son - my daughter -
two children - 3 months
two of the months were Snow
& very muddy for - Cattle
by the way. My son died
in Scotland & a month or
so before the war - but my
wife lived through that

except Jaws - We sleep
in the cellar & every night
the house was shaken to its
foundations by explosions. The
first bomb which fell near
us took down some of our
Chimney & killed 50 people.
I can't describe the misery
of those days - Every night
we thought would be our
last. My grandson was in
I notice for Jaws & my
elder front daughter when he
to a very dangerous place.

3
Africa is with him in
Sengapore & they have
been in Australia for a few
& loved it as Catalunha
are very difficult in Australia
She took a very nice house
with her & a fine chance
for the music having such
a trip. I make I could
have for - but I am
not allowed to go anywhere
as I don't want to go anywhere
who don't want to go anywhere
allowed to travel

Next week I shall be 86
- I feel very well - but
I can't see to read a word
now can I see what I want
to do. Very kind of you
to offer to send me things
but my dear people we are
not doing all right - very
frustrated because of money
but as for a library I cannot
be sent to England. The
duty on it is very high -
on some of the books costing
10 cents each & now \$1.20

In a parcel we would be
congratulated - one would
be with good words about
it. I believe I am on my
way out - one is not allowed
to buy more than 1/4 ^{books} ~~books~~
worth of more in a week (\$2.80)
I own only the last one (\$2.80)
I am sure we have a big
lot of fruit & vegetables
every thing is for sale
- I expect amusement is
not enjoyed - by the young
taking things over.

All my measurements were
American feet. My knee ~~at~~^{is}
taken from me by the foot.
at the stump knee for
Indiana, I feel \$ 40 Cdn
for C. P. R. - what cost one
\$200 a shoe. My wrist,
bath, my English / stump knee
also taken over. Southern
Railway 5 p. two letters ago
the given front stuff pygmy
my 3 p.c on wheel the 1st.
Come boy is 50 cents in a B/
has remembered me to
of my old / letter friends - 3 others
back of him
each own society
of the same kinship

29 May 1948

Letter from
Dr. D Moore Lindsay
to Hope M. Mohr

May 29 '48

My dear Hope

The cornucopia
base of business around today
from any other business life
you might meet - is how fast
the West Champ - because we
really got a fast deal of
frank of sorts. When I saw
a line labeled premium I
thought of the stuffed deer
you want to have - now
don't think that I don't want

enjoy the ship you and
 but what saw on the first
 pleasure was being remembered
 by last friends of so long
 ago - I sat by the fire for
 a long time with my very
 bright eyes shut - needed
 my life in there as surely
 as though I had just been
 there & it made me say out
 to him of how many had
 gone before I must soon follow
 so this is my last

show you were with any
 one with a better memory
 than I have. It was 60 years
 ago this I remember that I drove
 into there on the day when
 John Adams. I can hear his
 voice now with the thumping thumping
 of John D. Sweeney's wooden leg
 as he came out for the small
 following by Mr. D. - all half
 a packers. The last me into
 the hotel & felt with curiosity
 began questions - Did you come
 from the East? Are you going
 West. How do you spend it?

When I said I was a girl
 who had been told there was
 no happiness in love I
 said at once that the
 common people did not see
 things as they wanted to
 see - I thought her & said
 I would go on to S.F. in the
 morning - but that as I saw
 there I should call on the
 principal person in the house
 she said she would come
 with me & introduce me
 I said that as she knew nothing
 about me she could not as
 I would go alone

So I called on President H.
 & found him some four or
 five years of age. I told him
 the great story. I told him
 that I had the experience of
 the great things of the world
 I had them in my pocket
 I had just around from the
 East Indies & had been in
 South America & had been in
 before that - then I had been
 up the sea & wanted to be
 down. I had a long & very pleasant
 visit - the President said - the
 world goes here - just stay
 where you are

And I was very much amused
when I lost her I was sorry
to say. My first day I had 4
patients 12 Mr. Campbell (son of
Mr. Jim Cole) 2 " & Emma
Hewitt 3 " I was much
kind a one most - to the
a so before my long life in the
the last time I saw her
better was when I came in
with a very white 14 she was
her coming from Mexico - she
dressed in white - 15 her I
left 8. 2 I went to Mexico
& Guatemala on my way to
the city of San Salvador

4
my reason for leaving there was
just because it had such a
beautiful name - When I was
the guest of Dr. D on Mexico
Cocaine - the lovely landscape
where I stayed about one all
the night - My wife extremely
kind Spanish - I then
remained on to San Juan in
Mexico & again met charming
Spanish people. Of late years
my dear wife & my self were
in the habit of going to Mexico
All year - I am sure. I never
but to see but on our
that.

I am I feel terribly lonely
as one draws into one's life
friends & on. My first accepted
illustration is now in Singapore
the husband being in the Malay
my husband is returned from 4 years
in service in the Royal Engineers
he is now paying for a lecture
in Switzerland. Numerous are
to him & some. But I never see
old friends - a cloudy day
again

Dear Sir

I am very sorry
to hear all the things
in some areas away but the P.O.

My dear

Aug 2, 1948

My dear Hope,

Many thanks
for your letter. - We had
after 6 and more things
but we are buying more means
as badly off as you may
imagine. This is our way
of abundance as we have
a large garden full of
vegetables - an acre and
full of peaches - a very

Grand daughter in Singapore
sends no word - I wish
we can show I shall
at once apply to my
friend Hope. Long long
years ago - in 1888 one
day I drove up Cencer
Creek & visited a house
where I saw a pretty
little girl & a number
of children - her name was
Sadie

2

I was told that a
short time before both her
father & mother had died &
that she had the responsibility
of bringing up those children
I remember being so sorry
for her - but I knew she
was surrounded by very kindly
neighbors - Starting up
the canyon I had named
a few sheep & I was told
they belonged to John Austin
& so I long ago associated
John - Sadie & the sheep
& the names of J & S.

have always occupied a
much in my brain with
your father's name & some
thoughts - others as being
people of the utmost
& solemn & most interesting
interesting thing I dreamed
these days seem a long
time ago - but I remember
all very accurately. The most
southern place in Scotland
is called John O'groats -
the most northern place in
England is St Andrews End.

3
About 40 years ago I recollect
John O'groats as of course
I went across St Andrews End
& I have just been there
- there was much to see
but the trip took me through
the length of Cornwall & what
is a very interesting country
The ten names there have
been recorded for 2000 years
but now they have almost
no signs so high that they
can no longer be reached
There is always the chance
of very high water destroying

Am. industry entirely
so leading to unemployment
hinders things can be produced
at a small price
must close down - Down
a considerable time - Down
prices - I also visited the
Chinese lanes in Somerset
- but no more cases for
me - I have seen so many
from the 7th small lane in Kentish
to those in the 10th lanes - but
I see so badly that I find
them all alike

4
I found Southampton a
very nice small town
to prices - just as the
of route - but the city of
Bath was charming - I had
been there long ago
I remember - but the people
it - it was a great name
in from an time - 1600
ago - one day during one
midway I had about only
coming from Duke but not
so I drove over to see who
was being murdered - found
an important man

with Alcumum - He had
 been taken sick of the cold
 - but on a chair in the
 room - then he was kept a
 the room moved to another
 place - he was being thrown
 one night I did a very
 brutal operation at which
 I was - There were several
 feet of snow on the floor
 so it was open to the wind
 on one side - In one of the
 bathing boxes lay a man
 who had been lame

5
 down the mountain having
 been found the numerous.
 The man who came for
 me did not return to his
 house only for a while - He had
 a lamp but a snow storm
 hit the stove & it was blown
 so a Phillips lamp was used
 instead of light. - Now, I will
 tell the lamp was on hand
 - In the morning I went
 with the wife - The man lay
 on the floor - I saw that his
 shoulder was broken but

so I cut down & lightened
his skull removing all bones
from him he knew (Did
any one else ever do such
an operation under such conditions?)
I attended him for months &
he recovered completely - one

day I found he had gone
without even saying Good
bye his name was David
Baldy - Now you all see things
my book & well the same to
David's son. You know
of course & nothing

28 Feb 1949
Letter from
Dr D Moore Lindsay
to Hope M. Mehr.

Feb 25 49

My dear Hope
Very many thanks
for your letter & for your
kind offer to send me things -
How I appreciate this! I wish
so much as though you had
sent me the whole lot right
then - but we do not do
so readily now - some things
have improved very much - and
as output & prices & many
other things. The main thing
is the purchase tax which is

on good things - such as
first class clothes - 400 per
week - There is ^{all this} lovely stuff
on which there is no tax
but it is very expensive
Now it is difficult for you
to understand ^{condition} conditions here
without knowing the country
The houses are very large
- require a big staff of
servants - ^{these} there can be no
comparison had ^{at} any
rate their pay has gone up
very much while the income

2.

of the owner has been
reduced by taxation to a
small ^{fraction} fraction of his requirements.
If you take a man who
had an income of £10,000
a year - remember that he has
all his life been accustomed
to spending that amount - Now
he pays 1000 on the first 2000
+ 6000 on the next 8000 so
he now has only 3000 to live
on while the ^{cost} cost of living
has gone up from 10,000 to about
25 or 30,000 so he is down &
out. Labouring people are much
better off which is good but

It was limited "decided
so I got back to a school
house part of his house - so I
lived there all alone was about
20 acres - so the whole place
of 200 acres was all there
half of backus "acres -
been toward in part of Henry
I got under his school was
in back. back 3. down the
other day so of course to have
with better 1/3 of his estate in
small dairy so by Henry they
will get it all - then some
means are the friends of

4
Conclusion - This is a beautiful
manuscript - the U.S. is a new
country so after from conclusion
for the present - I got a long
interesting letter from John Oak
he is a fine steady man - so
down well - his property are
during well there is no place
I want to build so much as
Omnibus a Convent but that
are the places I can move so to
so they are dollar conclusions
the are not allowed to spend
a single dollar so we are
so much money to the country
to him I trust in better on only

Now we'll 12 ft. out. And it is
about 100 ft. in 3 or 4 inches
that is lost of this - such a loss
in some 75 ft. Cent. - on
very low currents as
19.5 in the present depth.
20 ft. in the present depth. There are
remains on to all old streets
from the heavy & heavy houses
while we are having summer
heat I don't know what we may
lose later on I should lose 4
feet in 1 or 2 or 3 or 4

Our survey
777 are & water
